GOOD

NESS

Goodness in the educational field is the fulfillment of the students of all that is needed to make their lives successful as true Christians. This process necessarily includes spiritual, moral, intellectual and physical development, for "Christian education takes in the whole aggregate of human life."

The heavy burden of responsibility belongs to the parents, but to aid them in the task, they summon the school in the formation of their children.

The Catholic school realizing that "every method of education founded wholly or in part on the denial or forgetfulness of original sin and grace and relying on the sole powers of human nature, is unsound", sets up activities which include the spiritual, intellectual, and physical.

Spiritual goodness can be attained by offering with the priest the Holy Sacrifice of the Mass each morning and by the reception of Holy Communion — the Sacrament of Penance always available — the Family Rosary — the annual Retreat — the participation in Mission activities — the guidance of the Homeroom Counselor and the several Novenas held throughout each school year.

Intellectual goodness can be attained both in classes and clubs, by application to mental tasks that involve memory and understanding. The constant application to the cultivation of the mind, in spite of difficulty, will strengthen the will to seek after what is good.

Physical goodness can be attained by participation in the athletic program, which includes competitive sports for those who are capable of them, and the compulsory education program for all. Through these students can acquire such goods as self-reliance, self-confidence, co-operation, and unselfishness.

Saint Michael's fosters to a high degree everything that will make for successful living because she realizes that "the subject of education is man, whole and entire, soul united to body in unity of nature, with all his faculties natural and supernatural."

SAINT MICHAEL THE ARCHANGEL
PATRON OF OUR SCHOOL

"If any man eat of this Bread,
he shall live forever"

Spiritual goodness cannot be better attained than by reception of Holy Communion, because the Eucharist converts one into Christ, the Perfect Man. It gives an increase of sanctifying grace, which is the participation in the Divine Nature itself, purifies the soul by effacing venial sin, and preserves it from mortal sin, the death of the soul. It is the pledge of eternal life for "he that eateth My Flesh and drinketh My Blood has everlasting life, and I will raise him up in the last day."

DEDICATION

In an age in which the frantic pursuit of the new has obscured the necessity of tradition, the Catholic Church has often stood alone in asserting the existence of ancient verities. Yet, paradoxically, the Church has also, during this period, been in the vanguard of man's attempts to advance himself.

In large measure, the resolution of these seemingly contradictory attitudes of the Church toward progress was found in the person of His Holiness, Pope Pius XII of happy memory.

Born in 1876, Eugenio Pacelli was assigned to the Vatican soon after his ordination; and was sent, as a papal nuncio, on diplomatic missions which carried him as far as America. Thus, when in 1939 he became Pope Pius XII, he was intimately acquainted with the contemporary world and the Church's position in it.

From the day of his election to the papacy he was a Pope of the Modern World, as his encyclicals, ranging in subject from the need for social justice to condemnation of present-day heresies, clearly demonstrate.

But, always, this pontiff of unquestioned sanctity and learning showed the utmost reverence for the traditions of the Church. One of the major events of his reign has been the proclamation of the Dogma of the Assumption — a belief almost as old as the Church itself.

It is with gratitude for his favours and with the hope that we will justify his beneficence that we, the students of Saint Michael's College School, reverently dedicate to the memory of Pope Pius XII THE TOWER for 1959.

ACTION WITH THE JUNIOR

KERRY BLUES

There was wonderful action in the Junior House League too. The "little guys" played hard and rough.

The Bantam League produced some sterling action. Stars of tomorrow learn the fundamentals in this league.

Big "little guys" in the Senior House League.

Ballet as it is done on the griditon.

THE FRESHMEN IN ACTION

Saint Michael's Freshmen of the Metropolitan Toronto Catholic Athletic Conference won the Championship with an undefeated season with De La Salle, Michael Power and Neil McNeil High Schools as their opposition. End runs and lateral pass plays featured a strong offensive. Gary Smith sends Terry Gorman away on one of these well-executed plays. Great offensive and defensive play featured throughout the season. Our camera caught a few of these — Jim McKendry's ferocious straight arm — Tom Morell's speed started him off on many spectacular breakaways — Tony Provisionato is seen on the end of an exciting pass play — and one of many thrilling touchdowns.

Perfect timing if he gets it away — and he did.

Speed galore with nice form.

Notable figures from the world of sport — football, hockey, and basketball, — were here to pay tribute to our athletes who won fame on the gridiron, in the arena, and on the court. The night was sponsored by the Quarterback Club of St. Michael's College School. Some of the trophies won by our athletes are seen in the foreground.

Hockey fans from far and wide paid tribute to Mr. Primeau on February the ninth for his contribution to hockey over the past thirty years. He will long be remembered first as a great player — a member of that never-to-be-forgotten "Kid Line" of Primeau, Connacher, and Jackson. In recent years he coached winners of the Memorial Cup, the Allan Cup, and the Stanley Cup. A rare feat indeed. Congratulations, Mr. Primeau.

THE UNITED NATIONS CLUB

United Nations Day was sponsored this year by the History Department under the direction of the Head of that Department, Father E. Ronan. An interesting programme was arranged, and the large group of students who attended were in agreement with the decisions that were made. The final conclusion was that since we will be the citizens of tomorrow who will help to run the world we had better find out something about it.

The pictures at the, *left*, of the page show twenty-five Grade Ten students who went in a group to New York during the Christmas vacation to visit the United Nations in that city. A happy and interesting time was had by all.

LIVE BETTER ELECTRICALLY

Canadians, more than any other people, benefit from electric power. Abundant low-cost electricity is one of the important reasons for so many busy factories . . . greater production of goods . . . and better paying jobs. In offices, on farms, and in homes, everywhere, electric power makes life easier and more enjoyable.

What Does LBE Mean to You?

LBE stands for "Live Better . . . Electrically", and these words have a very real meaning behind them.

In the home, for example, planned lighting brings new charm and cheerfulness to every room. Modern appliances in the kitchen and laundry save time and toil. Other appliances contribute to our leisure and entertainment. Automatic heating and air conditioning add to our comfort. There probably isn't an area in your home that cannot be equipped electrically to give *more* convenience, *more* comfort, and *more* service.

In home, office or factory the first essential is an up-to-date wiring system—to get the best results from the electrical products now in use, and provide for those you expect to acquire. Your local power company, your provincial Electric Service League, or any qualified electrical contractor will be glad to provide expert advice and help you to plan to "Live Better . . . Electrically".
